

Azelis Chemical Industries

Your chemical industries partner

Manufacturers, process and service providers need to constantly review and update their chemical inventory to improve performance, meet evolving environmental and quality standards, and maintain competitive advantage.

Azelis Chemical Industries offers a proactive service to chemical customers across Europe. We can advise you on the best available solutions, source new chemicals from around the world, synthesise new compounds for specific applications and provide reliable supply-chain and logistics throughout Europe.

Our product range includes

- **Base Chemicals**
A wide range of commodity and base products and services
- **Fine Chemicals**
Advanced and basic synthesis intermediaries for fine chemicals and pharmaceuticals
- **Performance Chemicals**
An extensive range covering industrial, manufacturing and process applications
- **Agriculture & Horticulture**
An innovative range of products for European agriculture, horticulture and farmcare markets
- **Electronics**
A comprehensive range of materials and accessories for the electronics industry
- **Salts**
An extensive portfolio covering food, pharmaceutical, industrial, water treatment and de-icing applications

“Azelis Chemical Industries can help you to find innovative, cost-effective, environmentally beneficial solutions, backed up with safe, reliable, fully compliant supply chain.”

Invaluable market insight, extensive product range

Azelis Chemicals is a leading European distributor of speciality and commodity chemicals, with a comprehensive portfolio of innovative products for high-tech solutions.

Our extensive range of chemicals has been developed to meet the evolving demands of European chemical industries. Working from local offices, we can provide market intelligence, trends and advice for specific end-user markets. From agrochemicals and detergents, to roads and water treatment, you can rely on Azelis to help innovate, develop and enhance your products and processes. We can ensure you meet the highest environmental and quality standards, whilst improving value and delivering absolute reliability of supply.

Global reach, local delivery

Our global reach with quality principals is complimented by toll manufacturing and bespoke synthesis capability. Our European supply chain is fully compliant with control regulations and business standards for the storage, handling, transport and trading of chemicals.
