

Azelis Coatings

Your experienced partner in coatings

Coatings perform a multitude of tasks. Creating the perfect finish or texture, vital protection, adhesion or longevity – choosing the best raw materials for each specialist coatings application is essential.

Azelis Coatings has many years of experience in helping manufacturers and customers who use coatings in products and processes to source the most effective raw materials. Our experts can help you to create new products, refine processes and develop commercial advantages for all your coatings applications.

Our portfolio includes products for the following industries

- **Paints & Varnishes**
A broad range of the latest additives, resins, and pigments & fillers for paint and varnish production
- **Adhesives & Sealants**
Resins, tackifiers and additives for adhesives and sealants across a broad range of industries
- **Inks**
Pigments, additives, vinyl, acrylics, nitrocellulose, hydrocarbon resins and rosin esters for all types of ink
- **Building & Construction**
One-stop pan-European supply chain for the building and construction market

“From ink, adhesive, paint or varnish manufacture to construction projects, we can help you to find the right raw materials to enhance coatings performance and improve competitiveness.”

Experts in coatings applications

Azelis Coatings is Europe’s dedicated distributor of speciality products for coatings applications, providing expert technical and logistical support.

Our 120-strong team can help with virtually every aspect of your product sourcing, optimising base materials, providing innovative new raw materials and helping you to improve overall product or process performance. Our reliable pan-European supply chain delivers appropriate quantities to suit specific applications.

Anticipating market expectations

Our specialists are constantly researching trends, identifying innovative new products and enabling our customers to anticipate market expectations. Our suppliers are market leaders and comply with the highest quality and environmental standards. We can advise you on national and regional legislation. All of our products are available with full documentation and traceability where appropriate.

We’re here to help

Our shared knowledge and experience, strategic synergies and unparalleled market access give us a unique view of the coatings industry and enable us to add value for all of our customers and principals. How can we help?

Market-focused Advice

Working from local offices in convenient languages we can help you to:

- Meet coatings challenges in new applications
- Develop new products
- Meet specific environmental and legislative concerns
- Advise on VOC regulations in different territories
- Provide market insights, product and technology advice based on real experience

Technical Expertise

Our experienced coatings experts can help you to:

- Explore new applications
- Anticipate trends in product development
- Understand the significance of new technologies
- Help you to find the right products and materials
- Advise on relevant regulations

European Supply Chain

Our hub warehousing, combined with local stock holding, is supported by fully integrated business management systems to provide:

- Flexible deliveries, intelligent solutions, throughout Europe
- Anything from bulk shipments down to the smallest packed goods and samples
- Segregated materials by business unit and hazard classification
- Effective cost control
- Customer delivery KPI’s on delivery fulfillment performance

Azelis – market-leading speciality chemical distribution

Azelis is the leading pan-European speciality distributor. We provide a diverse range of products and innovative services to more than 50,000 customers. Our in-depth local knowledge is supported by an international structure and value-added services including high levels of technical support and tailored solutions.

We serve both the Life Science and the Performance Chemicals sectors:

- Coatings
- Chemical Industries
- Composites
- Materials, Pigments and Additives (MPA)
- Polymers
- Rubber
- Food & Health and Animal Nutrition
