

# Azelis

# Materials, Pigments & Additives

Refreshing chemical distribution

# Your expert partner in MPA

Materials, pigments and additives (MPA) are a critical element for extrusion, compounders and masterbatch producers in the plastics industry, adding vital properties that define the characteristics of the end product.

Our dedicated MPA team is seen by many customers as an extension of their own product, manufacturing or process engineering teams, providing invaluable insights into new products, innovative technologies and fresh approaches. We offer products of consistent quality from leading manufacturers, with integrated supply chain to meet your production requirements throughout Europe.

## Our product range includes

- **Materials**  
A comprehensive range of Flame Retardants, Reinforcements and Fillers (Organics and Minerals) for all your plastic applications
- **Pigments**  
Azo-high performance, glitters and microfibers, iron and chrome oxides, metallics, cadmium and nickel titanates, pearlescent and phthalos pigments, solvent dyes, titanium dioxide, carbon black, ultramarine blues, and optical brightness
- **Additives**  
Covering a broad range of required performance attributes, from anti-oxidants and heat stabilizers to lubricants and waxes

“We can work as an extension of your in-house team, introducing new materials and technologies to enhance your production, process or product development.”

### Exceptional range, unrivalled expertise

Azelis MPA is Europe’s premier distributor of high quality materials, pigments, additives, flame retardants and reinforcements for plastics, textiles and wood applications.

Our suppliers are market leaders from all over the world. We use our expert knowledge and in-depth experience to constantly research new additives, new products and new raw materials, ensuring that Azelis continues to offer the most comprehensive MPA ranges across Europe.

### Unparalleled applications experience

Azelis has a dedicated team of over 30 people with unrivalled applications experience. We provide added value service to extrusion, compounders and masterbatch producers within the Polyvinyl Chloride and Polyurethane industries. Our teams understand the changing demands in automotive, electrical, electronics and other major markets, enabling our principals and customers to remain in-tune with end-user demand.

We understand the regulatory landscape and can advise your teams on evolving environmental perspectives. Our supply chain provides reliable, just-in-time deliveries to support individual production or process requirements.

### We’re here to help

Products, manufacturing or processes, Azelis MPA can help you to enhance your applications.

#### Applications Expertise

Our specialist MPA team has extensive applications knowledge:

- Plastics, textiles and wood applications
- Renowned market leading product portfolio in flame retardants
- Expert knowledge of special effect Pigments and Solvent Dyes.
- Support for Polyvinyl Chloride and Polyurethane Industries
- Dedicated staff focused on automotive, electrical and electronics industries

#### Sampling Service Centres

Each of our European offices can provide:

- Tailor-made pigments, sampling and advice
- Comprehensive support documentation (including Certificates of Analysis)
- Rapid response time
- Technical and regulatory assistance
- Pan-European supplier sampling service where needed

#### Technical Expertise

Our technical sales people can help you to:

- Explore new raw materials
- Develop innovative compounds
- Recommend products and formulations to deliver specific characteristics
- Coordinate all of your development and delivery needs

## Azelis – market-leading speciality chemical distribution

Azelis is the leading pan-European speciality distributor. We provide a diverse range of products and innovative services to more than 50,000 customers. Our in-depth local knowledge is supported by an international structure and value-added services including high levels of technical support and tailored solutions.

We serve both the Life Science and the Performance Chemicals sectors:

- Materials, Pigments and Additives (MPA)
- Chemical Industries
- Coatings
- Composites
- Polymers
- Rubber
- Food & Health and Animal Nutrition
- Personal Care
- Pharma

Whichever business area you deal with, you will find the people at Azelis who have an entrepreneurial spirit and can-do attitude. We embrace change and welcome challenges. We are always looking for ways to add value for our Customers and Principals. It's a refreshing way to do business.

*Azelis cares. Every day.*

“At Azelis, innovation is in our DNA. That’s why we’re refreshing the world of chemical distribution.”
