

Azelis Pharma

Refreshing chemical distribution

Your pan-European partner in pharma

In a dynamic market driven by constant development, changing regulation and evolving consumer demand, you need a partner with technical expertise, market and compliance experience, and the logistical capability to keep you one step ahead.

Azelis Pharma is the preferred partner of market-leading pharmaceutical, veterinary and health care companies. We source products from reputable suppliers worldwide. Our experts can help you develop new products. We can advise on regulations and offer a reliable integrated supply chain across Europe.

Our product range includes

- **Active Pharmaceutical Ingredients (APIs)**
Leading edge APIs including CTD compliant documentation (ASMF or CEP)
- **Flavours**
Including spray dried, liquid and long-life encapsulated flavours
- **Oral Healthcare**
A range of excipients for tableting, oral liquids and suspension products
- **Preservation Systems**
Anti-oxidants, anti-microbials products and preservatives
- **Suppository Ingredients**
Including binders, hard fats and lubricants
- **Topical Healthcare**
Pharmaceutical grade PEGs, MCTs, emulsifiers, silicones and polysorbates
- **General Excipients**
Basic excipients for pharma, veterinary and health care applications
- **Medical Devices and Primary Packaging Materials**
Lubricants, siliconisation and radiopacity products for improving the technical properties of medical devices and primary packaging materials

“We’re constantly sourcing new ingredients, helping our customers develop new products, whilst meeting changing regulatory requirements and ensuring that our supply chain is second to none.”

Innovative development, sourcing and delivery

Azelis Pharma offers an extensive range of finished preparations and active pharmaceutical ingredients (APIs) for the pharmaceutical, veterinary and health care industries. Our strength is in our experienced team, who can help you with every aspect of pharmaceutical sourcing and supply, from initial identification of target ingredients, to testing, evaluation and product development, compliance with regulations, through to specialist storage and ongoing delivery.

Quality control and approvals

Our manufacturing authorisation, including GMP certificate, is approved by the German authority Bezirksregierung Düsseldorf and EDQM for storage and distribution of psychotropic drugs and controlled substances. You will find total visibility of manufacturing source and customer audit trails are welcomed. Established batch traceability is offered on all of our products and original manufacturers’ documentation, including specification, MSDS, CoA and other appropriate standards are available.

We’re here to help

Azelis Pharma uses detailed knowledge of products and markets, consumer trends and European regulatory requirements to add value for principals and customers and to build beneficial long-term relationships. We look forward to working with you.

Applications Laboratories

For topical and flavour applications, we can help with:

- Confidential supplier and customer specific projects
- Novel topical applications
- Developing effective flavour systems for oral dosage forms
- Pilot runs using our 3kg vacuum reactor
- Microscopic analysis
- Product approvals
- Regulatory testing

Regulatory Affairs

We have an experienced regulatory affairs team who can help you with:

- Registrations and registration dossiers
- Reformatting of older registration dossiers into current Common Technical Document format (CTD)
- Own and third party Certificates of European Pharmacopoeia (CEPs)
- Evaluation and registration of Active Substance Master Files (ASMFs)
- Assistance for GMP upgrades
- Rationalisation of customers’ audits

Expert Sourcing

Working from offices in China and India, we find the right raw materials from a choice of worldwide suppliers to:

- Meet new product requirements
- Match existing ingredients
- Improve product efficacy
- Create market differentiation
- Drive competitive pricing

Azelis – market-leading speciality chemical distribution
