

# Azelis Polymers

# Your added value partner in polymers

Getting the right product mix to deliver the essential properties you need at an acceptable price point requires experience, knowledge and expertise.

Azelis Polymers helps principals and customers to innovate new products and to develop individual solutions to meet the needs of specific applications. Our extensive supplier network, supported by superior market insights, technical know-how and integrated supply chain, combine to provide a market leading service across Europe.

## Our product range includes

- **Engineering Polymers**  
Materials with high heat, mechanical strength, rigidity, chemical stability and flame retardancy properties
- **Commodity Polymers**  
A range of materials generally with lower mechanical properties for use in a wide and diverse range of applications
- **High Performance Polymers**  
A portfolio of polymers and speciality compounds with superlative mechanical, chemical and thermal properties
- **Thermoplastic Elastomers**  
A comprehensive elastomer portfolio of block copolymers, blends and alloys for injection and extrusion
- **Masterbatches**  
A complete range of universal and polymer specific masterbatches with custom colour options

“Our experienced technical team can help you to specify the right polymers for specific applications, whilst meeting your commercial and logistical requirements.”

## Quality support you can rely on

Azelis Polymers offers Europe’s widest range of commodity, engineering and high performance polymers. Our products are sourced from the world’s leading manufacturers, and comply with the highest quality and environmental standards.

To give you the edge, our dedicated teams are on hand to assist you with every step of the product development process – from material formulation and recommendation, to tooling design. We can work with you to enhance product properties, improve processing efficiencies and develop new solutions to drive up performance and minimise costs.

## Understanding products, production and markets

Our dedicated team will understand the needs of your end-market as well as your industry. This enables us to help specify the right materials to deliver specific properties, proven to work in your manufacturing or processing. We can advise on approved substances for food, medical and automotive markets and help you to embrace the latest environmental legislation.

## We’re here to help

Our supply chain provides reliable, just-in-time European deliveries for any scale of business. How can we help?

### Applications Expertise

Our specialist polymers team has extensive applications knowledge, helping customers to use the right product mix for manufacturing or processing in:

- Injection moulding
- Blow moulding
- Extrusion and compounding

### Market Advice

We have extensive knowledge of end-user markets, including:

- Automotive
- Construction
- Consumer Appliances
- Electrical and Electronics
- Packaging

### Added Value Services

Our added value services include:

- Innovation of new products in partnership with principals
- Sample batches for trial production runs
- Custom colour production
- Colour matching service

## Azelis – market-leading speciality chemical distribution

Azelis is the leading pan-European speciality distributor. We provide a diverse range of products and innovative services to more than 50,000 customers. Our in-depth local knowledge is supported by an international structure and value-added services including high levels of technical support and tailored solutions.

We serve both the Life Science and the Performance Chemicals sectors:

- Polymers
- Chemical Industries
- Coatings
- Composites
- Materials, Pigments and Additives (MPA)
- Rubber
- Food & Health and Animal Nutrition
- Personal Care
- Pharma

Whichever business area you deal with, you will find the people at Azelis who have an entrepreneurial spirit and can-do attitude. We embrace change and welcome challenges. We are always looking for ways to add value for our Customers and Principals. It's a refreshing way to do business.

Azelis cares. Every day.

“At Azelis, innovation is in our DNA. That’s why we’re refreshing the world of chemical distribution.”
