

Azelis Rubber

Your experienced partner in rubber

Working with rubber can be very challenging. From traditional tyres and cables to newer applications like sports halls and artificial grass, identifying the right mix of ingredients is key to performance, durability and competitiveness.

Alongside a great range of rubber products, Azelis provides superior specialist technical support. Our team can help you to improve processing or manufacturing efficiency, enhance your end-product and reduce costs, as well as providing reliable supply chain throughout Europe.

Our product range includes

- **Elastomers**
Natural & synthetic rubber, specialty elastomers
- **Rubber Chemicals**
Vulcanizing & protecting agents, cross linkers, accelerators, anti-oxidants, anti-ozonants
- **Processing aids and plasticizers**
Lubricants, naphthenic and paraffinic oils, coupling agents
- **Fillers**
Mineral fillers, reinforcement fillers
- **Pigments**

“As one of the few European suppliers with specialist rubber knowledge, we can add value all the way from product development, through to manufacturing and processing.”

Exceptional technical expertise

Azelis is a leading European distributor for the rubber industry, offering a full range of products including elastomers, natural and synthetic rubber, chemical additives and fillers such as silica, carbon black and pigments.

What sets us apart is our exceptional technical expertise, based on years of experience. Our team understands the unique properties of each and every rubber ingredient and additive. We can help you to enhance your manufacturing or processing, to reduce waste or improve handling. We can devise compounds for special applications or unusual conditions and work with you to drive up product performance or minimise costs. We can advise you on national and regional environmental and legislative requirements.

Pan-European supply chain

Our integrated pan-European supply chain, combined with local stock holding, can be relied on for convenient deliveries to meet your manufacturing and processing requirements, with full documentation. We can provide samples wherever you need them.

We're here to help

Whatever your application, Azelis Rubber can add value with quality products, backed up by expert knowledge. How can we help?

Technical Expertise

Our experienced rubber team can help you to:

- Explore new applications
- Exploit new products
- Embrace new technologies
- Improve manufacturing or processing
- Enhance end-product performance

Market Advice

We have extensive application and market knowledge, including:

- Tyres
- Cables
- Industrial rubber applications
- Automotive products
- Electrical and household applications
- Children's playground surfaces
- Sports halls
- Artificial grass

Added Value Services

Our added value services include:

- Tailored sampling service for all your rubber, additives and specialist compounds
- Advice on regulatory and safety compliance
- Pan-European delivery
- Customer delivery KPI's

Azelis – market-leading speciality chemical distribution

Azelis is the leading pan-European speciality distributor. We provide a diverse range of products and innovative services to more than 50,000 customers. Our in-depth local knowledge is supported by an international structure and value-added services including high levels of technical support and tailored solutions.

We serve both the Life Science and the Performance Chemicals sectors:

- Rubber
- Chemical Industries
- Coatings
- Composites
- Materials, Pigments and Additives (MPA)
- Polymers
- Food & Health and Animal Nutrition
- Personal Care
- Pharma

Whichever business area you deal with, you will find the people at Azelis who have an entrepreneurial spirit and can-do attitude. We embrace change and welcome challenges. We are always looking for ways to add value for our Customers and Principals. It's a refreshing way to do business.

Azelis cares. Every day.

“At Azelis, innovation is in our DNA. That’s why we’re refreshing the world of chemical distribution.”
