“Azelis Food & Health adds value at every point, from initial innovative global sourcing to creating differentiated products, driving up value and improving overall quality.”

Quality support, from concept to manufacture

Azelis Food & Health is the preferred supplier to many leading food and beverage manufacturers. From basic and functional ingredients, to complex recipes and new technologies, we can support you all the way through initial product concept to development and manufacture.

Our experts can help you achieve the taste, texture, appearance and nutritional or health balance that you need for your products. We can work with you to develop new products to meet emerging trends or new legislative requirements. We can introduce you to new ingredients that will add marketable properties to existing food, beverage, health or nutritional products and help you drive up quality, enhance shelf life or improve value.

Global sourcing, local delivery

We represent leading global manufacturers, bringing the highest quality products to market. We have offices in China and India and constantly monitor market developments to mitigate for regional cost variations. Our integrated supply chain provides sophisticated, reliable international logistical support. We offer a global sampling service as part of our customer service provision.
