

## Azelis Corporate Palm and Palm Kernel Oil Policy

Azelis is a member of the Roundtable on Sustainable Palm Oil (RSPO).

Our membership commits us to actively support the Roundtable process through advancing the production, procurement and use of Sustainable Palm Oil products. Likewise we require our Palm Oil and Palm Kernel Oil suppliers to sign up as a condition of supply.

Palm Oil and Palm Kernel Oil are an important and versatile raw material for both food and non-food industries. Rising global demand for Palm Oil and Palm Kernel Oil has fuelled deforestation in parts of South East Asia which is why we have set high targets to supply only from sustainable sources.

As a responsible distributor we aim to source products with the least possible impact on the environment. We recognise that, with rising demand, it is essential that Palm Oil and Palm Kernel Oil are sourced from sustainable plantations in order to enable the economic development of this region and to ensure we do not contribute to the destruction of high value conservation forests, threatening biodiversity as well as the livelihoods of local communities.

The Azelis companies that offer Palm Oil or Palm Kernel Oil products have RSPO traceability systems capable of guaranteeing the use of Palm Oil and Palm Kernel Oil from sustainable sources.
